

## **DEPCO Systems Named Reseller for NCR AIDC Solutions in Saudi Arabia**

*Newest NCR RealPartner offers RFID solutions for Saudi Arabia and regional market*

**August 14, 2007**

### **JEDDAH, Saudi Arabia**

– NCR Corporation (NYSE: NCR) announced that DEPCO Systems, a Saudi company specializing in telecommunications and information technology systems integration, has been named an NCR RealPartner and reseller for the NCR [TransitionWorks™](#) AIDC software platform.

Headquartered in Jeddah, DEPCO serves clients in Saudi Arabia and other parts of the Middle East region. DEPCO's portfolio includes radio frequency identification (RFID) solutions designed to help efficiently manage supply chain operations, increase security, improve efficiency and reduce operational expenditures – providing an attractive return on investment.

“We conducted rigorous research to determine the RFID middleware best suited to our solutions,” said DEPCO Systems Chief Operating Officer Edwin Chikhani. “The result was unanimous agreement within our organization that NCR, with the NCR TransitionWorks software platform, is best positioned to support our efforts now and in the future.”

DEPCO Systems plans to introduce at the end of 2007 the first RFID solution developed in Saudi Arabia – using NCR TransitionWorks. The solution will initially be marketed to DEPCO clients in the jewelry business and the banking sector.

The open architecture of NCR TransitionWorks will enable DEPCO Systems to fully integrate its RFID application and hardware into a homogeneous system that can be customized to operate across multiple market segments.

“Our new System is unlike anything available today in the market worldwide,” Chikhani said. “It will open up a new way of thinking in utilizing this technology through applications that are not yet fully exploited. Pharmaceutical companies, as well as asset-based and non-asset-based logistics companies in Saudi Arabia, will be next to benefit from our industry-leading efforts.”

“We are excited to have a firm with the expertise and stature of DEPCO Systems as a reseller in Saudi Arabia,” said NCR AIDC Solutions Group Vice President and General Manager Donna A. Wright. “NCR TransitionWorks is an ideal platform for visionary solution developers to create applications and integrated solutions – utilizing RFID and other AIDC technologies – that address the unique needs of their clients.”

### **About DEPCO Systems**

DEPCO Systems is a 100 percent Saudi-owned company, based in Jeddah and specializing in telecommunications and information technology systems integration. Krimmley Contracting and the JAYED Group created the start-up company in 2005 to target the expected growing need for such services in Saudi Arabia and the region.
